War, Literature & the Arts: An International Journal of the Humanities

Founded in 1989, WLA is indexed in *The American Humanities Index*, *Literary Criticism Register*, the *MLA American Periodical Verse*, and the *Annual Bibliography of English Language and Literature* and is a member journal of the Council of Editors of Learned Journals and the Council of Literary Magazines and Presses.

The opinions expressed in this journal may not necessarily be those of the editors, the United States Air Force Academy, or the Department of the Air Force. WLA exists as a forum for many voices seeking an understanding of war and art, and the intersection of the two. Because WLA is published using government funds, the material published is “public domain.”
